Description

This elevator-agitator for 20–40-liter drums feature a double-effect jack for a fast lift of a stainless-steel cover fitted for a quick material drum change. The cover is equipped with a motorized agitator fitted with blades for low viscosity materials and a full stainless steel rod. The elevator is coming on a large fixing plate which makes it very stable and easy to install in paint kitchens, existing installations or an essential component of new installations.

Performances

- Bi-directional jack for fast lift of stainless steel agitator cover (3 positions available)
- Quick material change
- Lubricated air motor - compact with adjustable speed and safe operation

Productivity

- User-friendly
- Agitator disengages during elevator movement

Sustainability

- Stainless-steel cover is compatible with all materials
- Suction and return tubes benefits suitable for re-circulating

Equipment

Designation	Part number
40l ram	151081000
COVER	154261600
SUCTION	154261800
40L AGITATOR	154261700
