## Description

This elevator-agitator for 200 Liter drums features a double-effect jack for a fast lift of a stainless steel cover fitted for a quick material drum change. The cover is equipped with a motorized agitator fitted with blades for low viscosity materials and a full stainless steel rod. The elevator is coming on a large fixing plate which makes it very stable and easy to install in paint kitchens, existing installations or an essential component of new installations

## Performances

- Bi-directional jack for fast lift of stainless steel agitator cover (3 positions available)
- Quick material change
- Stainless Steel slotted paddle impeller for high viscosity materials
- Lubricated air motor - compact with adjustable speed and safe operation

## Productivity

- User-friendly
- Agitator disengaged during elevator movement

## Sustainability

- Stainless steel cover is compatible for all materials
- Suction and return tubes benefit suitable for re-circulating

Equipment

| Designation   | Part number |
|---------------|-------------|
| 200L RAM      | 151091000   |
| 200L AGITATOR | 154260000   |
| SUCTION       | 154261400   |
| COVER         | 154261200   |
